*Experience
the Royal Game's
fascination in a club*

Chess - an outstanding sport

The **Chess Club Rottal e.V.** was founded in 2007, when SC Eggenfelden and SC Pfarrkirchen joined together to form a

club. After the fusion with Chess Club Simbach in 2016, the Club was renamed in „Chess Club Rottal-Inn“.

Today, the club has around 65 members and six teams, including two youth teams. The first team plays in the second highest Bavarian league.

A useful leisure activity for children and young people

The game of chess has a strong fascination on children and young people.

At the same time it is useful leisure activity because

- concentration and endurance,
- problem-solving and forward-looking thinking,
- creativity and finding original solutions,
- social competence in competition with peers

are supported and trained.

Children and young people who play chess are better at school as investigations showed.

Playing Chess in a club offers the opportunity

- to improve playing skills systematically,
- to participate in chess events of all kinds,
- to realise collective goals in teams,
- to compete with others and to be successful.

Chess - no longer a men's sport

Chess has a high reputation in Germany

- Germany won the European Chess Championship in 2011.
- The Bundesliga is the strongest league in the world.
- 90 players are bearing the title „International Grandmaster“.
- 89 000 chess players are organised in 2300 clubs.
